PROFESSIONAL SUMMARY

AI & Software Development Specialist with extensive experience in end-to-end software engineering, cloud computing, and mobile app development. Proven track record in building intelligent chatbots, cross-platform applications, and enterprise systems that enhance collaboration, automate workflows, and drive innovation. Certified by IBM (AI & Full-Stack Development) and Meta (React Native Mobile Development), with deep knowledge in Generative AI, Machine Learning, and DevOps (Docker, Kubernetes, CI/CD, Cloud Security). Skilled in leading teams, delivering scalable solutions, and applying Agile and DevSecOps methodologies to ensure efficiency, reliability, and security. Experienced in collaborating with NGOs and international companies to develop impactful technology platforms that solve real-world challenges.

TECHNICAL SKILLS

Programming Frameworks:	& Python, PHP, JavaScript (ES6+), HTML5, CSS3, SQL, React.js, React Native, Django, Flask, Tailwind CSS, Redux, Node.js, WordPress, Bootstrap, RESTful API, Full-Stack Development.
AI & Machine Learning:	IBM Certified, Generative AI, LLMs, Machine Learning, AI/ML, Prompt Engineering, ChatGPT, OpenAI, NLP, Predictive Analytics, OOP, Software Design Patterns.
Cloud & DevOps:	Docker, Kubernetes, CI/CD, DevSecOps, Cloud Computing, Containerization, Microservices, IBM Cloud, PaaS, API Gateway, SOA, Istio, OpenShift, Cloud Security.
Databases:	SQL, NoSQL, Firebase, Supabase, Relational Databases, DBMS, ORM.
Mobile Development:	Meta & Zain Certified, React Native, Cross-platform, Android, Kotlin, Swift, Google Glide.
Networking & IT:	Remote Access, CCNA (Beginner), ICDL, Computer & Network Administration, CLI, Linux, IDEs, Virtual Environment.
Tools & QA:	Git, GitHub, Version Control, Code Review, Software Testing, Functional Testing, Integration Testing, Unit Testing, Jest, Quality Assurance.
Professional Skills:	Agile Project Management, SDLC Models (V-Model, Spiral, Big Bang), DevOps, ALM, Presentation, Negotiation.

EDUCATION

Bachelor of (Honours) in Information Technology

Future University

Professional Certificates:

- Professional Certificate in Artificial Intelligence Developer | IBM
- Full-Stack Software Developer Professional Certification | IBM
- Meta React Native Mobile Developer Certification | Meta

PROJECTS

AI Chatbot – TDH Assistant Community Platform: Developed for Terre des hommes to assist community members.

VEES ERP System: Personal project for comprehensive accounting management.

VEES LMS System: Personal project to digitize education.

Work Hub App: Original project designed to enhance collaboration and workflow management.

Air-Ticket-Reservation System: University project demonstrating system design skills.

Online Stores: e-commerce project.

And a number of other projects.

CERTIFICATIONS & BADGES

- IBM Full-Stack Developer (15 Certificates)
- IBM AI Developer (11 Certificates)
- IBM AI Developer Badge
- React Native and Mobile Developer | Meta
- Software Developer Reference | IBM
- Role in digital security and human rights | Amnesty international
- Supervisor | Aldahab Company
- Build a Mobile App with Google Sheets | Glide
- Additional academic degrees and training courses available.

WORK EXPERIENCE

| **IT-Manager** [Green Life](#)

| **Supervisor** [Aldahab-Golden Fruit](#)

ORGANIZATIONS

- **Terre des Hommes:** Volunteer – IT - ICDL Course Instructor.
- **Samarat:** Volunteer.
